

ISM 4212: Database Administration

Peer Assessment

This is the final peer assessment for rating the participation of your team members during the semester. Please submit this at the end of the course. Note: This is an ungraded assignment.

For the assessment, please put yourself in the role of project manager and distribute bonuses to all your team members (excluding yourself). Instead of answering detailed questions, simply assume you have \$10,000 to distribute, along with some appropriate gifts.

Team Member	Bonus (Cash)	Gift
